

Welcome to **Oxyzone** Design Studio

where landscapes breathe life & design meets the art of nature.

The real voyage of discovery consists not in seeking
new landscapes, but in having new eyes.

- *Marcel Proust*

Inspired by Eastern roots, merging nature with modernity to create stunning landscape designs, Oxyzone Design Studio has now blossomed from Guwahati to Ahmedabad, enriching urban and natural spaces.

Our Story

Oxyzone Design Studio has been creating, designing and implementing landscapes across the nation: spaces ranging from small intimate spaces to large campuses. Our designers specialise in the field of Landscape Design, Landscape Architecture, Horticulture, Planning and have a reputation for delivering high quality professional services.

We have assisted clients across multiple industries both in Government and Private sector- ranging from Residential, Institutional, Retail and Hospitality. The combination of 10+ years of experience, staying current with today's trends and anticipating our client's vision and the end user's needs means we consistently exceed expectations with imaginative and implementable designs.

Our Vision

Our vision is to be recognised as the premier design studio known for transformative and harmonious creations that elevate the beauty of every environment.

We aim to redefine living environments by crafting innovative, functional, and aesthetically captivating designs that enhance the quality of life for our clients and foster a deep connection with the natural world.

Principal Designers

Visionary creatives behind the studio

Meet the dynamic mother-daughter duo behind Oxyzone, Ranjana Bhajanka (Founder, Director) and Ar. Chhaya Bhajanka (Architect, Design Director) who combine their unique perspectives and expertise to create a flourishing design agency. With a shared passion for transforming spaces, they bring a perfect blend of rich experience, creativity, and modern design sensibilities to the table.

Together they lead Oxyzone Design Studio with a vision to create innovative, functional, and beautiful spaces, making a significant impact in both the landscape and transitional space design fields.

Design Headquarters

Guwahati, Assam | Est. 2014

Nestled in the gateway to Northeast India, our Guwahati office brings a fresh perspective to design, inspired by the region's lush landscapes and diverse traditions

Ahmedabad, Gujarat | Est. 2023

Situated in the vibrant heart of Gujarat, our Ahmedabad office is at the forefront of innovative design in a city known for its rich cultural heritage and modern urban landscape

Who we are

We blend creativity & functionality to craft beautiful and sustainable landscapes that reflect your unique vision.

We draw inspiration from the beauty and harmony of nature. Striving to create spaces that fuse function and aesthetics. Our process allows us to create meaningful spaces that reflect sensitivity to the built and natural environment through an understanding of

scale, proportion, natural systems, materials and craftsmanship. Our passionate team of designers and horticulturists work closely with you to craft stunning, sustainable landscapes that seamlessly blend with the natural environment.

What we do

Landscape Design

Landscape design plans and creates outdoor spaces to enhance function, aesthetics, and sustainability, blending natural elements with structures to achieve beauty and ecological balance.

Transitional Space Design

It refers to the creation of areas that connect two distinct spaces, environments or functions within a building or landscape. It plays a vital role in defining flow, continuity and atmosphere.

Genres of landscape design:

Residential

Commercial

Public

Community

Garden

Sustainable

Design Approach

A lean creative journey.

STAGE 1

Site Analysis & Project Discovery

After understanding the clients vision, goals, budget and timeline we conduct a thorough site analysis where we gather valuable information which helps us take informed design decisions, address site-specific challenges, and create tailored solutions that maximize the potential of the outdoor space while minimizing environmental impact and maintenance requirements.

STAGE 2

Space Design Process

The design process allows us to experiment with the placement of plant elements, activity areas, hardscapes, and other features that the homeowner wanted in their outdoor living space. Critical decisions such as the grass installation are made during this phase, and all other conceptual ideas are finalized to complete the landscape installation plan.

STAGE 3

Site Execution & Supervision

Our expert Project Management team and group of architects oversee the Landscape execution of the site as per Design Masterplan to ensure adherence to the design intent, quality standards and schedule. We bring a network of industry professionals to help ensure the immediate and ongoing success of the landscape project.

STAGE 4

Regular Site Maintenance

We provide landscape maintenance services which means pruning, weeding, annual planting, irrigation, mowing of grasslands and the management of ground cover, which is often undertaken in conjunction with the regular maintenance and repair of a landscaped property.

From The Clients

The sweet truth about our work

“

Working with Ranjana Bajanka and Oxyzone Landscape on my terrace was an incredible experience.

Ranjana's creative solutions transformed it into a cozy, enchanting evening retreat. The warm lighting complements the greenery beautifully, creating a relaxing ambiance. Highly recommended for anyone looking to elevate their outdoor space!

5/5 stars!
Sunita Pareek

”

“

Working with Oxyzone Design Studio was an incredible experience. They transformed our vision into a beautifully designed space that feels like a natural extension of our home, with serene, sophisticated landscaping and thoughtful, functional terrace layouts.

Bimal Dugar

”

“

Team Oxyzone took the time to understand my requirements and transformed my outdoor garden into a stunning space. Their attention to detail and knowledge of plants is remarkable and truly makes a difference. Highly recommend!

Rahul Lohia
